

Public Workshop Notice in A.17-01-020 et al.: Standard Review Project Proposals Included in the Investor-Owned Utility Transportation Electrification Applications Pursuant to SB 350 and D.16-11-005

July 11, 2017 9:00am-4:30pm	<i>California Public Utilities Commission 505 Van Ness Avenue Auditorium San Francisco, California</i> <i>Webex will be available for remote participation Details to be provided closer to the event.</i>
---------------------------------------	---

AGENDA

California Public Utilities Commission staff will host a public workshop to discuss the standard review transportation electrification proposals included in the investor owned utilities' (IOUs) applications filed pursuant to requirements established in Senate Bill 350 to accelerate widespread transportation electrification.

On January 20, 2017, Pacific Gas and Electric Company, San Diego Gas & Electric Company, and Southern California Edison Company submitted applications proposing programs designed to reduce dependence on petroleum, meet air quality standards, lower greenhouse gas emissions, achieve the goals set forth in the Charge Ahead California Initiative, and be in the interest of ratepayers, as required under D.16-11-005. The utilities' applications can be found at www.cpuc.ca.gov/sb350te.

The focus of this workshop will be the utilities' proposals for standard review projects, which would install nearly \$1 billion in infrastructure aimed at accelerating transportation electrification across the three IOUs' service territories. A more detailed agenda for the workshop will be made available closer to the event.

Though a quorum of commissioners may be present, no decisions will be made.
